

## BSTOBS Olympic Bar Stands

*Bar, Weights and Collar not included*

## BSTOBS Olympic Bar Stands

Body-Solid Tools BSTOBS Olympic Bar Stands attach to any Olympic bar forming a built-in bar jack allowing users to load and unload weight plates from their Olympic bar efficiently and easily during deadlifts and other heavy floor starting lifts. BSTOBS Olympic Bar Stands elevate Olympic bars 10" off the ground allowing for 1.5" or more of plate to ground clearance. Additional features include a heavy-duty bolt-on design and solid 26mm steel construction.
