

## **BSTOPW** Olympic Plate Wedge

### **BSTOPW** Olympic Plate Wedge

The Body-Solid Tools BSTOPW Olympic Plate Wedge is a completely portable, easy-to-use alternative to deadlift jacks. Constructed from durable silicone with a specifically designed non-slip surface, the BSTOPW Olympic Plate Wedge offers simple on and off plate load for deadlifts and other floor starting lifts. The Olympic Plate Wedge makes it easier than ever to load and unload weights quickly and easily by raising both the bar and starting plates ½" off the ground.

The wedged design of the BSTOPW Olympic Plate Wedge also prevents rolling and rocking ensuring safe, simple and stress-free plate loads.

### **Special Features**

- Non-slip silicone construction
- Loading height: ½"
- Anchor hole for optional floor mounting or storage hanging
- Easy on and off plate load
- Designed to handle any weight
- Dimensions: 9"L x 1.75"W x 1.25"H
- Keeps bar and weights from rolling
