Pro•Dual Vertical Press & Lat Machine

DPLS-SF

Pro•Dual Vertical Press & Lat Machine

The Body-Solid Pro•Dual Vertical Press & Lat Machine offers a space-saving no-cable-change design solution for your people to focus on their chest and upper body with additional emphasis on their triceps and shoulders. Biomechanically designed for maximum muscle development, the versatile machine offers a single station footprint that delivers multiple functionality, including mid-row, shoulder press, lat pull-down and incline press. Multiple press handles provide users of all sizes with different grip angles to create variable exercises to concentrate on distinct areas of the chest and triceps.
