

GLP-STK Pro-Select Leg & Calf Press Machine

Body-Solid[®]
Built for Life

GLP-STK Pro-Select Leg & Calf Press Machine

Engineered with a double-beam design and precision bearings, the Body-Solid GLP-STK Pro Select Leg Press eliminates joint stress for a smooth, safe lower-body workout. Its oversized, pivoting non-slip footplate and stability handles allow users to securely target glutes, thighs, and calves using the 310 lbs. weight stack.

Special Features

- Rubberized oversize footplate
- Double beam design eliminates ankle stress and provides consistent resistance through range of motion
- Commercial grade, precision engineering block bearings
- 1:2 ratio
- 210 lbs. Stack included. Optional 310 lbs. stack
