Power Rack Safety Straps

Body-Solid GPRSS Power Rack Strap Safeties, compatible only with the GPR400 Power Rack, offer superior protection for users, Olympic bars, and the rack itself during heavy lifts. Made from heavy-duty nylon and tested to withstand 10,000 lbs., these adjustable straps absorb impact better than steel safeties, providing enhanced safety and stability for various exercises like squats and bench presses.

Special Features

- For use with the Body-Solid GPR400 Power Rack only
- 3" wide reinforced Nylon Straps
- Tested to withstand 10,000 lbs.
- 3/4" pull pin for quick adjustments
- Accommodates offset front-to-back adjustment heights
- Protects Olympic bar finish and integrity

Weight: 21 lbs.
Dimensions: 3"W
