

KBR Iron Powder Coat Kettlebells

KBR Iron Powder Coat Kettlebells

KBR Kettlebells feature a durable matte-black chip-resistant powder-coat finish and easy-to-read weight display. The matte powder-coat finish on Body-Solid Tools' KBR Kettlebells provides superior grip and feel even during intense, sweaty workouts.

KBR Kettlebells are also durable and chip-resistant, giving them a clean, sleek look for longer than other competitive kettlebells. The easy-to-read weight display ensures users find the right size and weight more quickly and easily.

The machined bottoms on Body-Solid Tools KBR Kettlebells provide a flat, stable, and wobble-free base for a safer workout environment.

Use Body-Solid KBR Kettlebells for a wide range of exercises and movements, including kettlebell swings, presses, cleans, lunges, pulls, and so much more.

Special Features

- Durable matte-black chip-resistant powder coat finish
- Easy-to-read weight display
- Flat machined bottoms for a wobble-free base
- Available in 5-80 lbs and 100 lb. sizes
