Pro Clubline  
LEVERAGE

### LVIPB Leverage Incline Bench Press

The Body-Solid Pro Clubline LVIPB combines the natural feel of free weights with the safety of a leverage machine, utilizing converging motion and unilateral arm action to ensure balanced muscle growth. Its commercial-grade, 11-gauge steel construction features gas-assisted adjustments, offering lifters of all sizes a durable and ergonomically precise upper-chest workout.

Weight: 167 lbs.  
Dimensions: 71”L x 53”W x 53”H

### Special Features

- Adjustable press arms to fit all size users, with gas assisted start positions
- Adjustable seat pad with gas assist
- Ergonomic hand grip positions
- Converging press arm movement
- Independent, unilateral arm action
