Extreme Olympic Bar

OB86EXT

Extreme Olympic Bar

Body-Solid's OB86EXT Extreme Olympic Bar is designed to match perfectly with our OBPX Chicago Extreme Bumper Plates and OBPXC Extreme Color Bumper Plates. This bar features a four needle bearing pivot, hardened chrome sleeves and a black zinc shaft. The OB86EXT Extreme Olympic Bar is built with a 28mm grip diameter, a hardy 1,500 lb. weight capacity and a tensile strength of 205,000 PSI. Aesthetically, the bar features a sleek embossed logo cap displaying weight information and more. Ideal for competition training, home gyms, garage gyms and group fitness facilities.
