

OBPH Hi-Temp Bumper Plates

OBPH Hi-Temp Bumper Plates

Body-Solid's OBPH Hi-Temp Commercial Bumper Plates are Made in the USA with recycled materials and a Stainless Steel bushing for long life and durability. Made to withstand the abuse in any weight room environment, these Commercial Bumper Plates won't chip floors and are quieter and safer than cast plates. These durable plates are thinner than most bumper plates allowing users to load more weight on bars and weight carriage systems. The plates have been proven in the toughest Gyms, Colleges and home use for over 10 years.
