Series II Assisted Chin and Dip

The Body-Solid Series 2 S2ACD Weight-Assisted Chin Dip Machine helps users of all levels master dips, chin-ups, and pull-ups. This machine counterbalances body weight with a 235 lb. weight stack and offers versatile grips, including wide lat pull-up grips, a foldable close-grip chin-up bar, and rock climbing grips. The S2ACD's user-friendly design features flip-away dip handles, stair steps for easy access, and a machine-defined path of motion.

Special Features

- 5 different grips for pull ups and chin ups
- Dip handles rotate out of the way for the other exercises
- Solid guide rods with sealed bearings
- Weight stack shroud included
- Multiple steps for easy access
- 235lb weight stack
