SAB500B Ab Bench

The Body-Solid Pro Clubline SAB500B Ab Bench is a top-of-the-line ab bench designed to help users build a stronger, more toned core.

Built for high-traffic workout facilities, this ab bench is compact enough for home or studio use and features gas-assisted adjustments for easy transitions between exercises.

Additional features on the SAB500B include seven adjustment levels, a durable and reliable 11-gauge steel frame, and a four-point base to ensure stability and eliminate unwanted rocking during workouts.

Weight: 125 lbs.
Dimensions: 70"L x 27"W x 49"H

Special Features

- Seven gas-assisted adjustment levels: 0°, 5°, 10°, 15°, 20°, 25° & 30°
- Premium foam pads
- Durable & reliable 11-gauge steel frame
- Convenient transport wheels & handle
