Functional Trainer Attachment for the SPR1000

The Body-Solid SPRFTS Functional Trainer Attachment for the SPR1000 seamlessly integrates with the SPR1000 Power Rack, creating a three-in-one system that combines a power rack, functional trainer, and lat pulldown machine. This space-saving attachment offers dual 210 lb. weight stacks (upgradable to 310 lb. weight stacks), smooth operation, and extensive cable exercise options for comprehensive strength and conditioning.

Special Features

- Dual 210 lb. weight stacks (upgradable to 310 lb. weight stacks)
- 2:1, 50% weight ratio
- Quad-roller carriage design and standard aluminum pulleys ensure fluid movement and precision
- Includes front functional pulleys, dual lat pulldown pulleys, and dual low pulleys
