SPRLFT Monolift

The Body-Solid Pro Clubline SPRLFT Monolift is an excellent rack attachment for users focused on squats and bench presses specifically.

This attachment reduces the chance of injury when lifting max weight while offering additional safety by removing the user's need to walk out on squats and avoid hitting j-cups during bench presses.

The SPRLFT Monolift is compatible with Body-Solid's GPR400, SPR1000 and SPR500 Power and Half Racks. The attachment mounts to the racks upright using a j-hook style mount.

Weight: 55.1 lbs.
Dimensions: 26"L x 3"W x 19"H

Special Features

- Reduces the chance of injury
- Additional safety on max weight lifts
- Compatible with Body-Solid GPR400, SPR500 and SPR1000
- Mounts to racks with j-hook style mount
- Sold as a pair
