SRD300 Vertical Dumbbell Rack

The Body-Solid SRD300 Vertical Dumbbell Rack is a durable, space-saving solution crafted from heavy-gauge steel with a scratch-resistant finish, ideal for organizing 10 pairs of dumbbells ranging from 5 to 50 lbs. in a compact setting. Its innovative front-loading, vertical design and protective cradles keep workout areas efficient and dumbbells in top condition.

Special Features

- Vertical, front-loading design offers a significantly smaller footprint than traditional racks
- Constructed from heavy-gauge steel
- Scratch-resistant powder-coat finish
- Holds 10 pairs of dumbbells (5-50 lbs.)
- Protective cradle covers prevent damage
